Education

Sept. 2022 - Jun. 2026 Beijing Language and Culture University Translation and Localization

Grades: 3.73/4 **Rank:**top 10%

Sept. 2026 - present Communication University of China MTI (Film and TV Translation)

Internship Experience

iFlytek Co., Ltd. Subtitle Translation Quality Evaluation Project Oct. 2026

Quality Rating: Applied 5-dimension genre-specific rubrics, grading each meaning unit at 0.5-point granularity.

Source Proofreading: Verified ASR against a self-built CN-EN SRT, correcting omissions and misrecognized proper nouns and digits.

Terminology & Consistency: Compiled on-screen proper nouns and terms, added 80 term notes, and fixed inconsistent translations.

Results: Evaluated 744 subtitles (273 meaning units, 2 program types) and logged 89 issue comments for QA.

DiDi Global Inc. Localization Project Management Jun. 2025 - Nov. 2025

Translation Process Oversight: Coordinated linguists & vendors, tracked demand progress, and ensured end-to-end delivery closure.

Cross-role Collaboration: Addressed translation queries, coordinated legal & PR reviews, and handled offline requests.

Results: Processed 260+ multilingual requests (10 languages) to support 5 production lines.

BLCU · Publicity Office Campus News & Content Management Feb. 2025 - May 2025

News Processing: Curated and quality-checked official news content for the university website and publications.

Meeting Documentation: Served as official rapporteur for university-level meetings, producing executive summaries and briefing reports.

Lingosail Quality evaluation of bilingual MT Jun. 2024

Quality Assessment: Evaluated translations per guidelines, analyzing grammar, semantics, etc. to assign accuracy ratings.

Results: Scored 500 AI-translated texts, delivering data-driven insights for translation optimization.

Xiaomi Corporation Terminology Management Mar. 2024 - Jun. 2024

Terminology Development: Built Xiaomi Auto's term base by consolidating industry data and tech docs, establishing core terminology.

Bilingual Optimization: Enhanced EN/CN automotive terms, fixing errors and improving consistency.

Standardization: Drafted clear term definitions, explanations, and examples per style guidelines.

Results: Delivered 100 refined bilingual term pairs, supporting Xiaomi Auto's terminology system.
